# LINERO MosaiQ

HUGE USER CHOICE, FINE DESIGN

 KESSEBÖHMER

**THE NAME SUMS IT UP** – the new midway elements are yours to mix and match, like mosaic stones, along the elegant rail. The multi-functional, anodised aluminium rail is the basic element in this variable system. The many practical optional elements are hooked in above or below the rail and can be moved or rearranged whenever you want to. And of course, LINERO MosaiQ is compatible with Kesseböhmer's successful Linero 2000 System.

**LINERO MosaiQ – RACTICAL AND ATTRACTIVE!**

The colours – graphite black and titanium grey – for the matt, tactile coating were chosen in consultation with experts at a well-known design institute. Décor inserts for the metal shelves come in a choice of wood finish or smoked glass.

# NO-DRILL FIXING: PowerMaxx

IDEAL FOR LINERO MosaiQ

PowerMaxx can be removed from almost any substrate without leaving any residues. Gluing instead of drilling makes installation far easier, but the connection is just as strong.

#### Product features:

- PowerMaxx for no-drill fixing – especially on glass splashbacks
- Simple, errorproof installation
- Ideal for retrofitting
